

## Address Bar HISTORY

To go directly to a website, the URL can be typed into the Address Bar at the top of browser. Internet Explorer remembers the websites that have typed into the Address Bar.

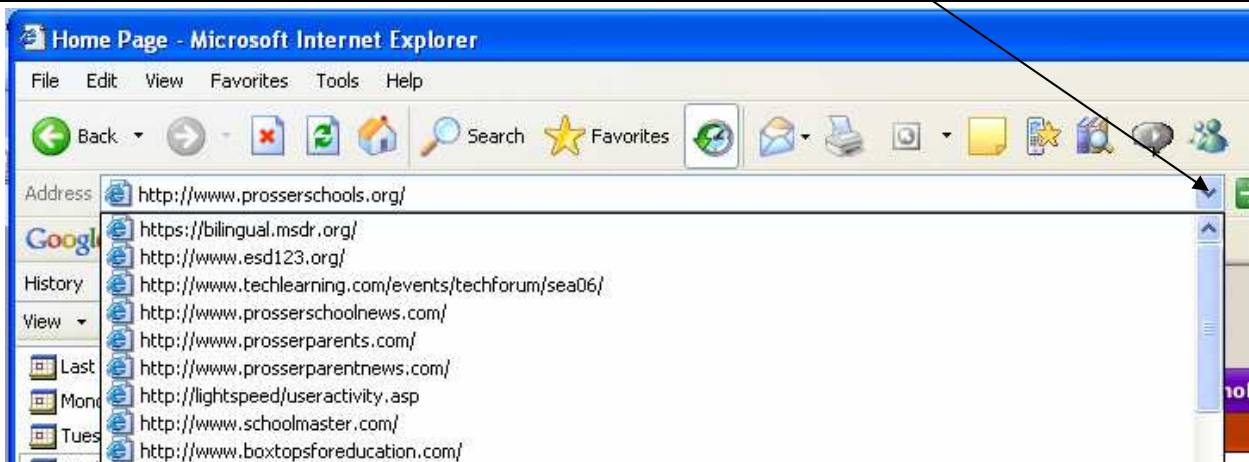

### Turn on Address Toolbar

- Click on View - Toolbars
- Make sure there is a 'check mark' in front of Address Toolbar
- If it doesn't have a checkmark, click on Address Bar.

Click on the dropdown arrow to the left of the Address Entry Box.

If you have the Google Search Toolbar installed, you can also view the search entries that were typed into it.

- Select the dropdown arrow to the left of the Search Entry Box
