

## A message from the Principal: Shellie Hatch

Dear Parents, Community Members, and Students:

Keene-Riverview Elementary staff encourages parents to be involved in their child's education in any way they can.

We have roughly 490 students and strive to enhance their learning in a fun and loving environment. We offer a variety of programs to help ensure that we provide your children with a quality education, including basic education and specialists in music, library, and P.E.

Our motto, "Together We Can" gives the message that together we, in partnership with teachers and our community, can provide the superior education that your child deserves.

We operate under two pledges: The Peace Promise and the Code of Conduct. The Peace Promise helps to emphasize the importance of maintaining a positive learning environment. The Code of Conduct is how we expect students to treat others.

We appreciate all the efforts our parents and the community put in to volunteering and making our school the great place it is. My door is always open, so feel free to stop by anytime with questions and/or suggestions.
