

## Quick Start Guide

To get started on netTrekker do the following: Go to <http://www.nettrekker.com>

- Click on  and fill in the form. You pick your username and password. Make a note of what you choose in case you forget. Answer all the other questions asked of you. Click on 'Next'.
- Pick WA from the 'state' pull down menu, type in Housel. Click on 'Next'. Select **Housel Middle School** and click on 'done'
- You will see a screen that says 'welcome to netTrekker' – click on 'done' – you are now a registered user of netTrekker!

To do a search:

- Choose  or  at the top of the page
- Put what you are looking for in the **Keyword:** box and click on . *\*Note you can do another search within your first results if you want to more narrowly define your results.*
- Click on  to see your results sorted by subject
- Click on  to see your results sorted by standards
- Click on  to save your results.

---

Now you are ready to check out these other options:

- Check out the tabs at the top for , , , , and  related to your search.
- Click on any of your search results for more information on your subject. *\*Note: the results page pops up as a separate window – you can easily go back to your original search results to see other results.*
- Click on  (notice Washington State banner) to search by standard. Enter your keyword or you can click on *Grade Level Expectations* or *Essential Academic Learning Requirements*.
- Take note of the yellow menu along the right side of the screen for 'timeline', 'saved searches' and other information.
